

# Central Florida Safe Routes

## Grant Mapper – *Data Information Page*

The Grant Mapper tool utilizes many different datasets and information below is a breakdown of the data.

The specific SRTS data sets can be downloaded from the [www.cfgis.org](http://www.cfgis.org) clearinghouse website.

The services used in the tool are also available at the CFGIS REST endpoint located at the following location:

<http://arcgisserver10.cfgis.org/arcgis/rest/services/SRTS>

This will expose the many different data services utilized by the tool and can be freely used in your applications, please acknowledge the East Central Florida Regional Planning Council in any source information about the service layers.

In addition to the SRTS services and the commitment of FDOT and the ECFRPC to share resources, several of the datasets in the Grant Mapper are from FDOT tools and Resources. The ECFRPC would like to thank its partnering agencies for the commitment to CFGIS.
